Caveats: NONE

Good afternoon,

I hope everyone is enjoying the holiday season.

I received a phone call today from Larry Magura (Black and Veatch) who is

deputy to Paul Marshall at DHCCP. He indicated that due to Westlands and San Luis recent moves to pull out of the BDCP, the DHCCP is suspending all work until the environmental work is significantly more complete.

DWR staff from the DHCCP are being reassigned including Paul Marshall who is likely to be moved to the flood office. It's unknown what will happen to the contractors. A small group from Black and Veatch whose main duties were program management have been asked to remain "involved" - READ standby; Larry Magura is included in that group.

I have not received anything directly from Paul Marshall but suspect that more information will be coming out. (So this is un-factchecked by a "true" DWR staffer. With that being said, Paul Robershotte, should know if this is accurate.)

Bottom line - The DHCCP, the engineering side of the BDCP, has been suspended until March 2012.
